

# Cabaret

## Early Maincrop

(Morag x Maris Piper)

### Consumer quality

Cabaret is a medium dry matter variety with extremely bright and bold tubers.

It has excellent, long-term stable fry colours, particularly out of storage and tastes superb.

Cabaret fries, boils and bakes extremely well.

### Agronomic features

Cabaret produces consistent high yields of bold, bright, attractive skinned tubers with shallow eyes. They are more uniformly sized and at least 2-3 weeks earlier than Maris Piper. Cabaret is particularly resistant to external and internal damage during processing and can be confidently aimed at both the French fry and pre-pack markets.

### Tuber characteristics

Market Sector	F/TT	Shape of tuber	LO
Maturity	3	Depth of eyes	3
Colour of skin	W	Smoothness of skin	S
Colour of flesh	C		

### Resistance to damage, pests and diseases
